General Regulations

NOTICE

This is a guide only. For sources, consult Nebraska statutes and official regulations.

CHANGES FOR 2005

Largemouth bass: Verdon Lake now has a 21-inch minimum length limit while Bennington Lake, Holmes Lake and Indian Creek WMA pond are total catch and release.

Channel and Blue catfish: Bennington Lake, Holmes Lake, Indian Creek WMA Pond and Skyview Lake now have a daily bag limit of three.

Northern pike: Goose Lake and Swan Lake now have a 28-inch to 34-inch protected slot length limit. North Platte I-80 Lake and Humphrey Pond no longer have a 30-inch minimum length limit.

Panfish: Bennington Lake, Holmes Lake, Indian Creek WMA Pond and Skyview Lake now have a daily bag limit of 10.

Bluegill: Pibel Lake, Yannee Park Pond and Cottonmill Lake no longer have an 8-inch minimum length limit. All other lakes that currently have length limits on either bluegill or redear sunfish have

been modified to include all sunfish species in order to avoid confusion. Sunfish species and their hybrids include the following species: bluegill, green sunfish, pumpkinseed, orange-spotted sunfish and redear sunfish.

Archery: The boundary of the closed area below Gavins Point Dam is now described as that portion from Gavins Point Dam downstream to a line that extends from the east end of the south cement wall of the discharge canal northwest to the east end of the north wall of the stilling basin.

Paddlefish Archery: The season has been extended to 30 consecutive days starting on the second Saturday of July. **Baitfish:** No live baitfish may be used or possessed on Holmes Lake, Skyview Lake and Ta-Ha-Zouka Park Lake.

Urban Fishing Areas: Two additional areas have been added to the Urban Fishing Program. They are: Bethphage Pond (Axtell) and Ta-Ha-Zouka Park Lake. Bethphage Pond will have total catch and release on largemouth bass while Ta-Ha-Zouka has a 21-inch minimum length limit. Both ponds will have a panfish daily bag limit of 10, and a channel catfish daily bag limit of three.

WHO IS REQUIRED TO HAVE A PERMIT?

A fishing permit is required to take or attempt to take fish, bullfrogs, snapping turtles, tiger salamanders or muskels by any method, except for the owner or the guest of the owner of any totally private water body which (1) is located entirely on private land, (2) is entirely privately stocked, (3) does not connect by inflow or outflow with any outside water and (4) is not operated commercially. A resident fishing permit is required for all Nebraskans 16 years of age and older. However, fee-exempt permits are available to the following resident veterans: (1) 50 percent disabled as a result of service in the armed forces, (2) received a pension from the Veterans Administration as a result of a total and permanent disability not incurred in the line of duty in military service, or (3) is 65 years of age or older who served during a specific time period that qualifies them as a veteran. In addition, residents 70 years of age or older can receive a fee-exempt permit. The fishing permit must be carried by the holder while he/she is actively fishing.

Information and application forms for fee-exempt fishing permits are available from Game and Parks Commission offices across the state and also from permit agents.

A resident is a person who has resided in Nebraska continuously for at least 30 days and who has a bona fide intention of becoming a legal resident of this state. Others who may obtain a resident permit include: (1) military personnel officially stationed in Nebraska and on active duty here for at least 30 consecutive days; (2) nonresident students upon proof they have attended classes full time for at least 30 consecutive days at any Nebraska college, university, junior college, vocational school or any foreign exchange high school student; and (3) any person duly enrolled in and attending a civilian conservation center or similar government work or training facility for 30 consecutive days.

2005 PERMITS

Type of Permit	Permit Cost	Agent Fee	Total
RESIDENT ANNUAL FISH	\$15.00	\$1.00	\$16.00
RESIDENT COMBINATION FISH-HUNT	25.00	1.00	26.00
RESIDENT 3-DAY	10.00	1.00	11.00
NONRESIDENT ANNUAL	45.00	1.00	46.00

A nonresident fishing permit is required of all people who are not residents of Nebraska, except those listed and those under 16 years of age who are accompanied by someone possessing a valid permit.

A "special fishing permit" is available for physically disabled or developmentally disabled persons who cannot cast or retrieve without assistance. This permit entitles the disabled person and one person assisting him or her to take, fish, catch, harvest or possess any aquatic organism in compliance with state law. If the person assisting doesn't possess a current fishing permit, they are restricted to one daily bag limit between the two anglers. An Aquatic Habitat Stamp is not required with this special permit. The annual permit is issued on a calendar year basis and costs \$5 regardless of the age of the applicant. A "disabled person" means a person certified by a physician to have a permanent physical impairment or developmental disability that results in the inability to use fishing

equipment unassisted. Applications are available from the Game and Parks Commission headquarters in Lincoln or Commission offices in Alliance, Bassett, Kearney, Norfolk, North Platte, Omaha and Ak-Sar-Ben Aquarium at Gretna. The application must be verified by a physician before a permit can be issued.

An Educational Fishing Project
 Permit can be obtained by instructors of any university, college, or high school from the Fisheries Division for his or her students, 16 years of age and older that are participating in an educational fishing project.

*See Boundary Waters section for permit requirements for fishing the waters of the Missouri River.

PARK ENTRY PERMIT

A vehicle Park Entry Permit is required to enter state park and state recreation areas to fish.

LIFETIME PERMITS

A Nebraska lifetime hunting or fishing permit, representing a lifetime of exciting outdoor experiences, is a valuable gift you can give yourself or a special friend or relative.

Three types of lifetime permits are available to Nebraska residents: Fishing, \$300.00; Hunting, \$260.00; and the Combination Hunting and Fishing, \$520.00.

The permit is valid for the life of the person to whom it is issued, even if the holder moves from the state. Only Nebraska residents may purchase a lifetime permit, and only for themselves or for another Nebraska resident. Not included in the cost are some special stamps which must be purchased annually. Permits do not cover fees for big-game hunting.

Lifetime permits are available at Commission offices, Chadron State Park, Fort Robinson State Park, Wildcat Hills State Recreation Area (SRA) and the Calamus Fish Hatchery. Applications are also available from about 900 permit agents across the state.

AQUATIC HABITAT STAMP

An Aquatic Habitat Stamp is required of all residents and nonresidents, 18 years of age and older, who participate in activities that require a fishing permit. This includes three-day permits; however, an angler is required to purchase only one Aquatic Habitat Stamp per year.

Veterans 65 years and older and residents 70 and older who have a fee-exempt permit are exempt from purchasing an Aquatic Habitat Stamp. Anglers who have a Lifetime Fishing Permit also are exempt from the Aquatic stamp requirement. Although they are required to purchase an annual Nebraska Fishing Permit, anglers ages 16 and 17 are not required to have the Aquatic Habitat Stamp. Revenue from the sale of these stamps is used solely to enhance and restore aquatic habitat and quality fishing in Nebraska's reservoirs, lakes and streams.

PENALTY FOR

NO FISHING PERMIT

Under Nebraska State Law the minimum fine if convicted of fishing without a permit is \$75.00, court cost whether you appear or pay by waiver are \$41.50, and damages assessed for each fish are from \$20.00 to \$50.00 depending on the species and size of fish. Maximum fine is \$1,000 and/or six months jail time. It is important for anglers to purchase a fishing permit in order to support fisheries management across the state.

IT IS UNLAWFUL...

- to borrow or use the permit of another or lend your permit to another.
- to leave dead fish or any part thereof on the banks or in the water of any stream, lake or other body of water.
- to fish on any private land without landowner permission.
- to use a crossbow or similar device, except a handicapped person who has a medical certificate on file.

- to seine sport fish of any size.
- to use float lines.
- to leave fish in a trap for more than 24 hours.
- to release in public waters of the state any fish that did not originate in that body of water.
- to attempt to snag fish, except in areas designated. See section on Snagging for details.
- to use limb lines or set lines in any pond, lake or reservoir.
- to purchase or attempt to purchase a permit while under suspension or revocation in any state.
- to keep an externally foul-hooked fish.
- to consume and/or have an open container of alcohol at any state park, state recreation area or wildlife management area.

Fish Species Categorization

Is defined to include all baitfish, commercial fish and sport fish:

GAME FISH

SPORT FISH

The following fish species are designated as sport fish:

- | | | |
|-----------------------|-------------------------|-------------------------------|
| • all sunfish hybrids | • grass pickerel | • saugeye |
| • American eel | • green sunfish | • shovelnose sturgeon |
| • black crappie | • largemouth bass | • skipjack herring |
| • blue catfish | • muskellunge | • smallmouth bass |
| • bluegill | • northern pike | • spotted bass |
| • brown trout | • orangespotted sunfish | • striped bass |
| • brook trout | • paddlefish | • striped bass hybrid (wiper) |
| • burbot | • pumpkinseed | • tiger muskellunge |
| • channel catfish | • rainbow trout | • walleye |
| • chinook salmon | • redear sunfish | • white bass |
| • cutthroat trout | • rock bass | • white crappie |
| • flathead catfish | • Sacramento perch | |
| • goldeye | • sauger | |

PANFISH

The following fish species are designated as panfish:

- | | | |
|-----------------|-------------------------|-----------------------|
| • black crappie | • bluegill | • redear sunfish |
| • white crappie | • green sunfish | • all sunfish hybrids |
| • yellow perch | • pumpkinseed | |
| • rock bass | • orangespotted sunfish | |

SUNFISH

The following fish species are designated as sunfish:

- | | | |
|-----------------|-------------------------|-----------------------|
| • bluegill | • pumpkinseed | • redear sunfish |
| • green sunfish | • orangespotted sunfish | • all sunfish hybrids |

COMMERCIAL FISH

The following fish species are designated as commercial fish:

- | | | |
|-------------------|-------------------|----------------|
| • black bullhead | • freshwater drum | • yellow perch |
| • yellow bullhead | | |

SEASONS

Hook-and-Line: Open year-round throughout the state, except as noted or as posted at an area.

Archery: Game fish may be taken from sunrise to sunset from July 1 through Dec. 31 statewide, except paddlefish in the Missouri River. Nongame fish may be taken year-round, sunrise to sunset and from Apr. 1 through Aug. 31, 24 hours a day, statewide. Paddlefish archery season begins on the 2nd Saturday of July and runs for 30 consecutive days. A valid Paddlefish Tag is required (See section on Paddlefish, pgs. 20-21). See section on Archery/Surface Spearing (pg. 12) for other exceptions. Length and bag limits apply for archery.

Snagging: The paddlefish snagging season is Oct. 1 through Oct. 30. A valid paddlefish tag is required. See

section on Paddlefish Tags (pg. 22). All other waters of the state are closed to snagging at all times. See section on Snagging (pg. 9).

Surface Spearing: The entire state is open to the taking of nongame fish year-round, sunrise to sunset. Spearing is allowed 24 hours a day Apr. 1 through Aug. 31.

Underwater Spearing: Game fish may be taken from sunrise to sunset July 1 through Dec. 31. Nongame fish may be taken year-round, sunrise to sunset. See Underwater Spearing section (pg. 13) for open waters.

HOOK AND LINE LIMIT

Ponds, lakes or reservoirs -

Anglers are limited to no more than two lines with a maximum of two hooks on each line with these being any type of attached line (rod and reel or fishing pole) on all lakes, ponds or reservoirs

Fish Species Categorization

BAITFISH

The following fish species are designated as baitfish:

- alewife
- bigmouth shiner
- brassy minnow
- creek chub
- emerald shiner
- fathead minnow
- gizzard shad
- golden shiner
- goldfish
- longnose dace
- plains killifish
- red shiner
- river shiner
- sand shiner
- stoneroller
- suckermouth minnow
- white sucker

The following

amphibians and crustaceans are covered under the baitfish regulations:

- plains leopard frog
- northern leopard frog
- tiger salamander
- ringed crayfish
- papershell crayfish
- northern crayfish
- devil crayfish

THREATENED AND ENDANGERED SPECIES

The following fish species are designated as Threatened or Endangered in Nebraska and are not legal to possess:

- blacknose shiner
- finescale dace
- northern redbelly dace
- pearl dace
- pallid sturgeon
- lake sturgeon
- sturgeon chub

NON-GAME FISH

All species that do not appear

on any of the above lists are considered non-game.

or in their inlets, outlets and canals within one-half mile of these water bodies with the exception of ice fishing line limits. This includes Lewis and Clark Lake from Gavins Point Dam upstream to the Santee boat ramp in Knox County, Nebraska.

Ice fishing - A total of five lines with two hooks on each line are permitted during ice fishing, unless restrictions are listed for a specific area in the Public Fishing Area section. Each ice fishing line must be under direct supervision and within unaided observation of the angler.

Rivers or streams - A total of 15 hooks are allowed ranging from 15 lines with a single hook attached or three lines with a maximum total of five hooks attached. These can be rod and reels, poles, bank lines or set lines which are in some way attached to the bank and not free-floating. Float lines are not legal in Nebraska. Float lines are defined as any line not attached to the shoreline or pole. All bank lines and set lines must contain identification to include name, address and fishing permit number or current driver's license number.

Snagging - Only one hook which has a gap between the point of the hook to the shank of not more than one-half inch is allowed.

Definition of a hook - one hook means a single, double or treble-pointed hook. All hooks attached to an artificial bait or lure shall be counted as one hook.

Note - Upon completion of fishing, all bank lines and set lines must be removed.

SNAGGING

Snagging of paddlefish and nongame fish is permitted only in the Missouri River under season dates and limits specified in the Paddlefish and Snagging of Nongame Fish (pg. 20) section. All other waters of the state are closed to snagging for all species at all times. All fish that are snagged accidentally or otherwise foul-hooked must be returned to the water immediately.

BAIT REGULATIONS

Baitfish, listed amphibians and crayfish may not be sold except by permit. For commercial purposes (bait dealers, private aquaculturists and nonresident fish dealers), refer to the official regulations supplied with your permit. The following regulation guidelines apply only to bait obtained for personal use. It is unlawful to take baitfish, listed amphibians or crayfish from any lake, reservoir or bayou unless otherwise stated below. Digging and trapping for bait or any other purpose is prohibited on all state-owned or controlled areas. Seining for baitfish, listed amphibians or crayfish is allowed on streams located on SRAs and WMA's unless the stream is listed as closed. All non-baitfish, of whatever size, taken while netting or seining for bait must immediately be returned to the waters from which taken. The bag and possession limit of baitfish and listed amphibians for personal use is 100.

Gizzard Shad and Alewife: May be taken for use as bait by legal dip nets from lakes, ponds, reservoirs, and below dams and other artificial obstructions for a distance of 200 yards below such obstructions. Live shad and alewife can only be used in the body of water in which they were captured (see section on cast nets). Shad and alewife may be taken by legal seine, or dip net in streams except those streams closed to the taking of baitfish or bait by such method. Bag and possession limits 100.

Below Dams: The seining of baitfish, listed amphibians or crayfish is unlawful for a distance of 200 yards below any dam or spillway. In these waters baitfish, listed amphibians, and crayfish can be taken by legal baitfish dip nets for personal use only.

Restricted Species: It is unlawful to sell, transport or offer for sale as bait, any live carp, carpsucker, bullhead, buffalo, gar, quillback, gizzard shad, alewife or bowfin. Live fish of those species may be used for bait only in the same waters from which they are legally taken. Dead carp, carpsucker, bullhead, buffalo, gar,

quillback, gizzard shad, alewife or bowfin may be transported for use as bait. Sport fish can be used for bait: (1) if they have been legally acquired from a licensed aquaculturist or a nonresident fish dealer. The angler must keep a legible receipt, or invoice from the dealer listing the date, seller's name and address; and number and size of each species sold, or (2) if they are captured using hook and line and used at the body of water from which they were captured. In the latter case, the angler will be required to follow both length and bag limits that are enforced on that water body.

NO LIVE BAITFISH AREAS

The following areas do not allow the use or possession of live baitfish:

- Chalkrock Lake (Cedar County)
- Cottonmill Lake (Buffalo County)
- Crescent Lake National Wildlife Refuge (Garden County)
- Fye Lake (Grant County)
- Holmes Lake (Lancaster County)
- Olive Creek Lake (Lancaster County)
- Pibel Lake (Wheeler County)
- Valentine National Wildlife Refuge (Cherry County)
- Wagon Train Lake (Lancaster County)
- Wildwood Lake (Lancaster County)
- Yankee Hill Lake (Lancaster County)

White Perch: It is illegal to transport or possess live white perch away from the water body from which they were caught.

Dumping baitfish: It is illegal to release your baitfish or any fish caught from a different waterbody into public waters.

Exporting: Up to 100 legally captured baitfish and/or listed amphibians can be exported by a resident for personal use for fishing outside the state. No other baitfish taken from Nebraska waters may be transported out of the state in any manner, except baitfish artificially propagated in man-made impoundments by licensed aquaculturists.

Importing: It is unlawful to import or transport carp, carp sucker, buffalo, quillback, gar, gizzard shad, alewife or bowfin into the state for use as bait. Special permits are required for a person to import and sell bait or baitfish.

Baits and Scents: Cutbait is legal if the fish used has been legally acquired and the size, bag and possession limits for that species and water body have been followed. It is also legal to chum for fish using non-harmful baits. Anise oil and other scents that do not stun, kill or harm fish are permitted.

Leopard Frogs and Tiger Salamanders:

All regulations that cover the legal use of baitfish also apply to the use of leopard frogs and tiger salamanders.

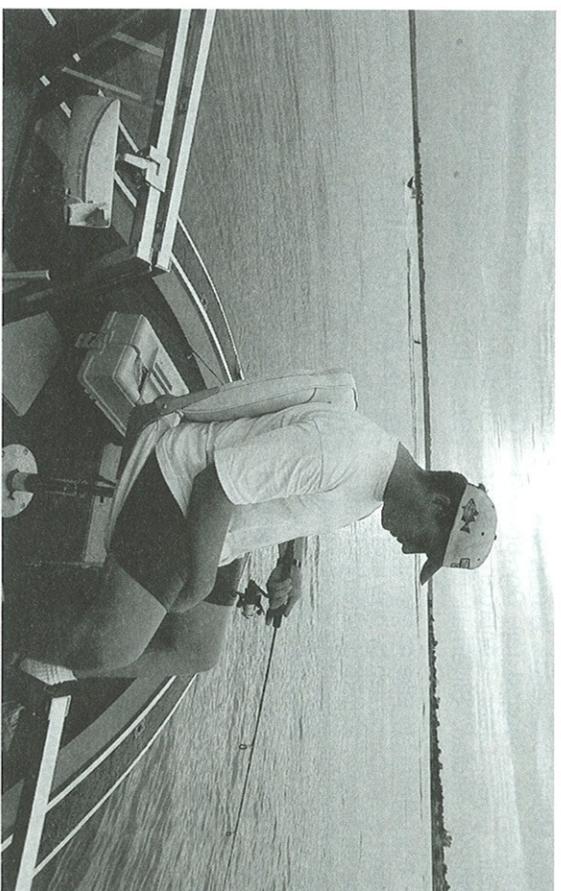

Crayfish: There is no limit on the number of crayfish a person may possess. Anyone over the age of 16 must have a bait dealers license in order to sell crayfish. Crayfish may be captured by hook and line, by hand or by legal fish nets and traps as described below.

Fish Nets and Traps: The possession or use of any nets, traps, electrical gear capable of stunning fish or other devices except the following is unlawful:

- Baitfish seines of one-fourth inch non-metallic square mesh only and not over 20 feet long and four feet deep.
- Baitfish dip nets of one-fourth inch non-metallic square mesh. Neither length nor width may exceed 36 inches.
- Baitfish and bait traps of one-fourth inch square mesh material with a length of 24 inches or less, a diameter of 16 inches or less and a throat one inch or less in diameter. All minnow traps shall be raised and the baitfish removed at least every 24 hours.
- Landing nets, made of non-metallic mesh, used only for landing fish caught on hook-and-line.

CAST NETS

Cast nets can be used to collect bait with the following restrictions:

- Only cast nets up to 10 feet in diameter with a mesh size no larger than three-eighths inches square measure are legal gear.
- Can only be used during the months of July, August, September, October and November.
- Can only be used to collect gizzard shad and alewife.
- Live gizzard shad and alewife may only be used for bait the same day they were captured in the same water body where they were collected.

- Cast nets can only be used on the following water bodies: Calamus Reservoir, Davis Creek Reservoir, Elwood Reservoir, Enders Reservoir, Farwell South Reservoir, Gallagher Canyon Reservoir, Harlan County Reservoir, Jeffrey Reservoir, Johnson Lake, Lake Maloney, Medicine Creek Reservoir, Lake McConaughy, Phillips Canyon Reservoir, Plum Creek Reservoir, Red Willow Reservoir, Sherman Reservoir, Sutherland Reservoir, Swanson Reservoir and the Tri County Canal from the diversion dam in Lincoln County to the J-2 return.

FISH STOCKING

It is unlawful to release any non-native fish, reptile or amphibian in

waters of the state or to release any fish in any public waters in the state except those from which it came, without written authorization from the Game and Parks Commission.

NOTICE: DO NOT transfer any fish from one lake or stream to another. It is illegal to dump baitfish in a water body. You could be destroying your own fishing!

FREE FISHING DAY MAY 21

Free Fishing and Park Entry Day is intended to attract those who no longer fish or who have never fished and to give them an opportunity to do so without purchasing a permit. It is held on the Saturday prior to Memorial Day weekend. Anglers, both resident and non-resident, can take advantage of that day by taking a non-angler friend to any water body in the state and showing them how much fun fishing can be.

TROUT WATERS

It is unlawful to possess a dip/landing net or seine of any type on trout streams in Sioux, Scotts Bluff, Morrill, Garden and Keith counties that are tributaries to the North Platte River and Lake McConaughy, including: Pumpkin, Red Willow, Wildhorse, Stuckenhole,

Nine Mile, Tub Springs, Winter, Sheep, Dry Sheep, Spotted Tail, Dry Spotted Tail, Otter, Clear, Lonergan, Upper Dugout, Indian, Silvermail Drain and Cedar creeks.

It is unlawful to take or attempt to take sport or nongame fish by bow and arrow or spearing or to take or attempt to take by seine or trap any bait or minnows in any of the following trout streams:

Antelope County: Verdigre Creek and all tributaries.

Brown County: Bone Creek and all tributaries, Long Pine Creek and all tributaries, Plum Creek and all tributaries and Fairfield Creek.

Box Butte County: Niobrara River.

Cherry County: Middle Loup River and all tributaries, North Loup River and all tributaries, Schlager Creek, Fairfield Creek, Snake River and all tributaries, Plum Creek and all tributaries.

Cheyenne County: Lodgepole Creek west of Brownson.

Dawes County: Chadron Creek, Big Bordeaux Creek, Little Bordeaux Creek, White River above Crawford, Niobrara River from Box Butte Reservoir west to the Wyoming line and all tributaries, Dead Horse Creek, Squaw Creek and White Clay Creek.

Garden County: Blue Creek.

Holt County: Steel Creek and North, Middle and South branches of Verdigre Creek.

Hooker County: Dismal River and all tributaries.

Keith County: Otter Creek, White Tail Creek and Lonergan Creek and all tributaries.

Kimball County: Lodgepole Creek and all tributaries.

Knox County: North, Middle and South Verdigre Creek and all tributaries above the town of Verdigre and Steel Creek.

Loup County: Gracie Creek.

Morrill County: Red Willow Creek, Cedar Creek, Greenwood Creek,

Wildhorse Creek, Lawrence Fork Creek, Silvermail Drain, Indian Creek, Stuckenhole Creek and Pumpkin Creek below Highway 88.

Rock County: Long Pine Creek.

Scotts Bluff County: Nine Mile Creek, Winters Creek, Tub Springs, Wet Spotted Tail Creek, Dry Spotted Tail Creek, Sheep Creek, Dry Sheep Creek, Stuckenhole Creek, Akers Draw, Mitchell Drain, Moffat Drain, Alliance Drain and Bayard Drain.

Sheridan County: Snake River, Larabee Creek, White Clay Creek, Pine Creek, Deer Creek and Little Bordeaux Creek.

Sioux County: Sheep Creek Drain, Dry Sheep Creek Drain, Dry Spotted Tail Creek, Spotted Tail Creek, Niobrara River and all tributaries, White River, Soldier Creek and all tributaries, Monroe Creek, Sowbelly Creek and Hat Creek.

Webster County: Elm Creek.

THREATENED AND ENDANGERED SPECIES

It is unlawful to take by seine, dip net or trap any baitfish in the following streams that contain threatened and endangered fish species:

Cherry County: Brush Creek west of Brownlee, and Gordon Creek west of Highway 61.

Dawes County: Niobrara River east of Box Butte Reservoir and west of Highway 385.

Keya Paha County: Cottonwood Creek, East Holt Creek and Holt Creek
Madison County: Taylor Creek west of Highway 81.

ARCHERY/SURFACE SPEARFISHING

Game fish may be taken by bow and arrow from July 1 through Dec. 31 from sunrise to sunset, statewide. Game fish may not be taken with surface spears. Nongame fish may be taken by archery or surface spear year-round statewide,

sunrise to sunset between Sept. 1 and Mar. 30 and 24 hours a day from Apr. 1 through Aug. 31.

Only hand-drawn longbows (including compound bows) are legal. A crossbow may be used by a handicapped person who has a medical certificate on file with the Game and Parks Commission. Arrows may have only one point, which must be barbed and must be attached by a line to the bow at the time the arrow is released.

The following waters are closed year-round: Two Rivers, Louisville, Fort Kearny, Fremont, Mormon Island and Windmill SRAs; Platte River and E. T. Mahoney state parks and trout streams (see Trout Waters pgs. 11-12). For surface spearing, only hand spears are legal. All spearing devices must be barbed.

UNDERWATER SPEARFISHING

Lawful spear guns include hand spears, rubber band-powered spear guns and spring-loaded spear guns. All spears used on powered spear guns must be attached to a lanyard no more than 20 feet long. Underwater spearfishing is not permitted within 100 yards of any designated swimming or water-ski jump area, boat dock, boat ramp or spillway.

Seasons

Game fish: July 1 through Dec. 31 in waters listed below. Bag, possession and length limits are the same as for hook and line, except that there is a daily bag limit of 2 walleyes and a possession limit of 4 walleyes in effect on all lakes listed below. Hours are sunrise to sunset.

Nongame fish: Open year-round in waters listed below. There are no size, bag or possession limits. Hours are sunrise to sunset.

Waters Open to all Species

- Privately owned lakes with permission of the lake owner
- Lake McConaughy, Keith County
- Lake Ogallala, Keith County

- Lake Minatare, Scotts Bluff County
- Box Butte Reservoir, Dawes County
- Lewis and Clark Lake, Knox County
- Harlan County Reservoir
- Enders Reservoir, Chase County
- Elwood Reservoir, Gosper County
- Hugh Butler (Red Willow) Reservoir, Frontier and Red Willow counties
- Harry Strunk (Medicine Creek) Reservoir, Frontier County

- Sutherland Reservoir, Lincoln County
- Maloney Reservoir, Lincoln County
- Jeffrey Canyon Reservoir, Lincoln County
- Johnson Reservoir, Gosper and Dawson counties

- Sherman Reservoir, Sherman County
- Swanson Reservoir, Hitchcock County
- Merritt Reservoir, Cherry County
- Calamus Reservoir, Loup and Garfield counties

Waters Open to

Non-game Fish Species Only

- Buffalo County - Union Pacific SRA, War Axe SRA, Bassway Strip WMA, Buffalohead WMA, Kea Lake WMA, Kea West WMA, East Odessa WMA, Blue Hole East and West WMAs, West Elm Creek WMA, and North Kearney Rest Stop.
- Dawson County - Dogwood East and West WMAs, Cozad WMA, Cozad West WMA, Willow Island WMA, and East Gothenburg WMA
- Hall County - Cheyenne SRA, West Wood River WMA and Aida DOR
- Phelps County - Sandy Channel SRA

Diver's Flag

The diver's flag must be displayed on the water on a float or buoy when diving or underwater-powered spearfishing. Divers and underwater spearfishers must remain within 150 feet of the flag. The flag must be at least 12 inches square, with a red background and white diagonal stripe that is one-fifth the width

SNAPPING TURTLES

Snapping turtles may be taken year-round, and limits are 10 in the daily bag and 20 in possession. They may be taken only by hand, hand net, hook-and-line, bow-and-arrow or gaff hook.

MUSSELS (CLAMS)

Mussels may be taken year-round by hand, hand net or hook-and-line. The limit is 10 daily and 20 in possession.

DROUGHT AND NEBRASKA RESERVOIRS

Is it ever going to rain again? Will our reservoirs ever be full again? Many Nebraskans and Nebraska anglers are wondering what impacts the drought conditions are going to have on the fisheries in our reservoirs.

It is inevitable that fish populations will be impacted, because fish need water! Many Nebraska reservoirs have reached levels as low as 20% of capacity or even lower. A good way to visualize the impact that has on fish communities is to consider how many minnows can be kept alive in a 5-gallon minnow bucket compared to how many can be kept alive in a 1-gallon minnow bucket.

Fish in water-depleted reservoirs become stressed. In the worse case, the lack of water can be so severe that fish kills occur. Loss of habitat is a major impact as shallow water cover is left high and dry, and spawning habitats are reduced or eliminated. Young fish that do manage to hatch find very little shallow cover in which to hide and feed. Reservoir fish populations can also be depleted as fish exit the reservoir along with water that is released.

Prey fish populations are also impacted by low water levels. In some cases temporary drawdowns can be beneficial when over-abundant prey fish are pulled out of shallow water cover making them more vulnerable to predation. Therefore, temporary drawdowns are a tool that fisheries managers can use to reduce over-abundant prey populations. However, severe, prolonged drawdowns will result in long-term declines in prey populations

and that means less food for predator fish.

Droughts come and go here on the Great Plains, and these cycles have been and will be repeated over and over again. As water levels are low, cottonwoods, willows, cocklebur and smartweed are growing on exposed reservoir substrates. When the water returns, this vegetation will be flooded and produce excellent habitat conditions for most fish species.

Fishing in drought-depleted Nebraska reservoirs can be good. Hungry fish concentrated in a smaller area means they are easier to catch. Anglers are able to take advantage of the good fishing and harvest some fish as those populations adjust to smaller habitats. Eventually fish populations and fishing suffer from low water conditions. Ironically reduced catches and poorer fishing likely will occur when water levels start to come back up. When the water returns, fish populations will be able to expand into ideal habitats, but for a time anglers can expect fishing to be more difficult as depleted populations are able to disperse into larger areas of ideal habitat. Eventually fish populations and fishing will boom following refilling, but that could take several years.

There are those who have said that water will be the issue of this century for western states. Changes in policy and water law may be beneficial to fish and wildlife. There is no doubt that low water levels impact our fisheries and fishing, but given enough time and precipitation things will get better.

Special Regulations

AREAS WITH SPECIAL DAILY BAG LIMITS

SPECIES BAG LIMIT

TROUT (All species)

- Daily Bag limit - 4
Lake Ogallala
- Total Catch and Release
Big Bourdeaux Creek WMA

STRIPED BASS, WHITE BASS AND THEIR HYBRID

- Daily Bag Limit - 3 (no more than one fish longer than 18 inches)
Conestoga, Willow Creek and Elwood reservoirs
- Daily Bag Limit - 1
Bridgport SRA, Fremont SRA, Fort Kearny SRA, Louisville SRA and Windmill SRA

- Total Catch and Release
Branched Oak Lake
- **NORTHERN PIKE**
• Daily Bag Limit - 1
Cottonmill Lake (Kearney)

- **PANFISH**
• Daily Bag Limit - 10
Please refer to the Public Waters Section for the individual water body.

- **BLUEGILL**
• Total Catch and Release
Please refer to the Public Waters Section for the individual water body.

- **LARGEMOUTH, SMALLMOUTH, SPOTTED BASS (combined)**
• Total Catch and Release
Please refer to the Public Waters Section for the individual water body.

- **CHANNEL AND BLUE CATFISH (combined)**
• Daily Bag Limit - 5
Niobrara River below the Spencer Dam
- Daily Bag Limit - 3

Please refer to the Public Waters Section for the individual water body.

- Total Catch and Release
Wildwood Lake

FLATHEAD CATFISH

- Total Catch and Release
Branched Oak Reservoir

TOTAL CATCH AND RELEASE LAKES FOR ALL SPECIES

Bennington Lion Club Pond, Jenny Newman Lake (Platte River State Park), Tilden City Pond, and Two Rivers SRA Lake #3 and #4.

AREAS WITH SPECIAL LENGTH LIMITS

Bass (Largemouth)

12-inch minimum: That section of the Missouri River between Nebraska and Iowa and Nebraska and Missouri with the exception of Missouri River lakes and oxbows regulated with a 15-inch minimum length limit. Non-public waters except for totally private waters.

15-inch minimum: Statewide on all government or publicly-owned, controlled or managed waters, except where other limits apply, and parts of the Missouri River. This also includes the following Missouri River lakes and oxbows: DeSoto National Wildlife Refuge Lake, Washington County; Snyder Bend Lake, Dakota and Thurston counties; and Lake Yankton, Cedar County.

21-inch minimum: 21-inch minimum: Auburn Rotary Lake (Nemaha County), Buckskin Hills Lake (Dixon County), Burchard Lake (Pawnee County), Olive Creek Lake (Lancaster County), Skyview Lake (Madison County), Stagecoach Lake (Lancaster County), Swan Creek Lake 5A (Saline County), Ta-Ha-Zouka Park Lake (Norfolk), Wagon Train Lake (Lancaster County), Walnut Creek Recreation Area (Papio 21) and

Wehrsparm Lake (Sarpy County), Willow Lake (Brown County), Verdon Lake, Yankee Hill Lake (Lancaster County), York Recharge Lake (York County) and Zorinsky Lake (Douglas County).

Note: The statewide bag limit only allows one bass 21-inches or longer. Catch and release largemouth bass lakes: Refer to Special Bag Limit Section.

Bass (Smallmouth and Spotted)

12-inch minimum: Statewide on all publicly owned, controlled or managed waters, except where other limits apply and parts of the Missouri River. There is a 12-inch minimum length limit on all black bass in the section of the Missouri River between Nebraska and Iowa and Nebraska and Missouri.

Walleye, Sauger and Saugeye

15-inch minimum: Statewide except for that portion of the Missouri River downstream of Gavins Point Dam and reservoirs with more restrictive length limits listed below. DeSoto National Wildlife Refuge Lake (Washington Co.) has a 15 inch minimum length. The daily bag limit of four fish can have only one over 22 inches in length with the exception of Elwood Reservoir which allows only one fish over 24 inches.

18-inch minimum: Harlan County Reservoir (including the Republican River upstream to the Highway 46 bridge), Harlan County; Sherman Reservoir, Sherman County; Calamus Reservoir, Loup and Garfield Counties.

Other special walleye length limits:

Merritt Reservoir, the daily bag limit of four may include one walleye 15 to 18 inches and three over 18 inches or four over 18 inches, but only one walleye over 22 inches is allowed. Elwood Reservoir is regulated with a 15-inch minimum length limit in conjunction with an 18 to 24-inch protected slot limit with only one walleye over 24 inches allowed in the daily bag limit. At Branched Oak Lake the daily bag limit is one fish 22 inches or longer.

Special restrictions at Lake McCaunghy can be found in the Nebraska's Public Fishing Areas section which begins on page 46.

Muskellunge/Tiger Muskie

40-inch minimum: Statewide.

Shovelnose Sturgeon

No harvest is allowed on that portion of the Missouri River upstream from the mouth of the Big Sioux River.

Northern Pike

28-inch maximum: Valentine National Wildlife Refuge

30-inch minimum: Alda DOR (Hall County), Blue Hole East WMA (Buffalo County), Grove Lake (Antelope County), Cottonmill Lake (Kearney County), Enders Reservoir (Chase County), Red Willow Reservoir (Frontier County), Maskentine Reservoir (Stanton County), and Sherman Reservoir (Sherman County).

28-inch to 34-inch protected slot length limit: Goose Lake and Swan Lake (Holt County).

Crappie

10-inch minimum: Branched Oak Reservoir (Lancaster County), Cottonmill Lake (Buffalo County), Czechland Lake (Saunders County), Sherman Reservoir (Sherman County), Walnut Creek Recreation Area and Wehrsparm* Lake (Sarpy County), Yanney Park Lake (Buffalo County), and Zorinsky* Lake (Douglas County).

***Note:** The length limit is not in effect during the month of April on Wehrsparm and Zorinsky lakes.

Sunfish

8-inch minimum: Czechland Lake (Saunders County), Mormon Island Lakes No. 1, 2, and 3 (Hall County), Olive Creek Lake, Stagecoach Reservoir and Wagon Train Lake (Lancaster County), Walnut Creek Recreation Area (Sarpy County), Wildwood Lake (Lancaster County), Windmill SRA No. 4, and Yankee Hill Lake (Lancaster County).

Striped Bass and Hybrids/White Bass (combined)

18-inch minimum: Bridgeport SRA, Fremont SRA, Fort Kearny SRA, Louisville SRA and Windmill SRA.
Note: One over 18 inches in daily bag limit: Statewide

Total catch and release: Branched Oak Reservoir.

Flathead Catfish

Total catch and release - Branched Oak Reservoir.

Trout

20-inch minimum: Lake Ogallala (Keith County) on brown trout. Combination daily bag, which includes all trout species, is four with a possession limit of eight.

Total catch and release - Big Bordeaux Creek on Big Bordeaux Creek WMA.

Bullfrogs

4 1/2-inch minimum: Statewide

All Other Species:
No length requirements.

ICE FISHING

When ice fishing, only five lines with no more than two hooks on each line are permitted. Each line or tip-up used while fishing public waters must be under the direct supervision and within the unaided observation of the angler. Holes made for ice fishing may not exceed 10 inches in diameter on any area controlled by the Game and Parks Commission.

A special \$5 permit is required for a permanent shelter on state recreation and wildlife management area lakes. Applications and regulations are available from conservation officers, Commission offices or by mail from the Game and Parks Commission, Box 30370, Lincoln, NE 68503. This does not apply to temporary shelters used and removed each day.

AREAS OPEN TO THE USE OF ATV'S AND SNOWMOBILES FOR ICE FISHING

Snowmobiles, all-terrain and motorized off-highway amphibious vehicles may be operated on the frozen surface of the following designated lakes, unless otherwise posted as being closed: Bluestem, Branched Oak, Conestoga, Olive Creek, Pawnee, Stagecoach, Wagon Train, Enders, Medicine Creek, Red Willow, Swanson, Box Butte, Merritt, Oliver, Sherman, Elwood, Sutherland and Calamus Reservoirs; Fremont Lakes, Gallagher Canyon, Johnson Lake, Lake Maloney, Lake McCaunghy, Lake Miratare, Lake Ogallala, Lewis and Clark Lake, Louisville Lakes, Rockford Lake, Summit Lake, Willow Creek Lake, Walgren Lake, Willow Lake (Brown County), Big Alkali Lake, and Cottonwood-Steverson Lake. These vehicles can be operated on the state park areas only from one-half hour before sunrise until 9:00 p.m. or as posted. It is recommended that these vehicles not be used unless the ice thickness is a minimum of eight inches.

BORDER WATERS

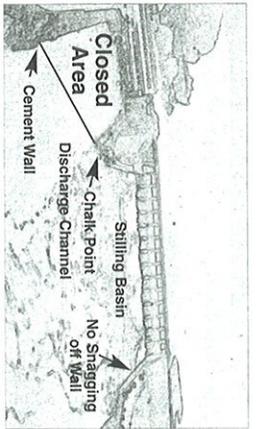

Missouri River (South Dakota, Iowa and Missouri): Anglers holding a valid Nebraska, South Dakota, Iowa or Missouri sport fishing license or permit may fish all waters of the Missouri River in the state they are licensed, as well as those of the adjacent state. Waters of the Missouri River are defined to include all flowing portions and backwaters, sloughs and chutes that draw water from the Missouri River. Oxbows and backwaters separated from the Missouri River by land are included if the state boundary line passes through some part of such waters. Mouths of tributaries may only be fished in the state that the angler is licensed. Anglers may fish from either bank or boats. Anglers fishing in the state for which they do not hold a

fishing permit must abide by the more restrictive of the two state's regulations. Both Iowa and Missouri resident anglers can fish waters of Hamburg Bend WMA and the Nebraska portion of the Missouri River from the chute entrance (adjacent to Iowa) to the chute exit (adjacent to Missouri).

PADDLEFISH AND SNAGGING OF NONGAME FISH

Missouri River - Snagging of paddlefish and non-game fish is permitted from the Gavins Point Dam downstream to the mouth of the Big Sioux River at Millie Marker 734, except for a closed area that extends downstream from Gavins Point Dam to a line that extends from the east end of the south cement wall of the discharge canal northwest to the east end of the chalk point. However, snagging off the north wall of the stilling basin is prohibited. Paddlefish harvested by snagging may be possessed only on the Missouri River during the respective open season in the

designated open area. All inland waters are closed to paddlefish harvest. The snagging season runs only from Oct. 1 through Oct. 30. Legal hours are 7 a.m. to 7 p.m. All snaggers must obtain and have in their possession an unfilled paddlefish tag in addition to a fishing permit and Aquatic Habitat Stamp (if required) while actively snagging. Applicants must be 12 years old by Oct. 1 in order to apply for a snagging permit (see section on Paddlefish Tags). A paddlefish must be tagged immediately in the dorsal fin with the angler's tag upon addition to the creel. Any paddlefish tag that is locked shall be void and **WILL NOT BE REPLACED**. Only one hook may be

used when snagging, and the gap between the point of the hook to the shank may not exceed one-half inch.

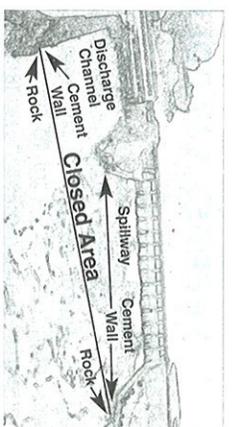

The daily bag and possession limits are the total number of tags issued to an individual. A harvest quota will be managed by issuing a limited number of paddlefish tags with a limit of no more than two tags per person. (Consult section on paddlefish tags pgs. 22-23). All paddlefish anglers are required to cast for and hook their own fish. All paddlefish between 35 and 45 inches long (measured along the center line of the fish, lying flat, including the entire eye to the natural fork of the tail), must be returned to the water immediately. The slot limit is designed to protect spawning-size fish.

It is unlawful to use a gaff hook or other penetrating device while landing snagged paddlefish. Immediate cleaning of a snagged paddlefish is restricted to the removal of only the snout, in front of the eye, and the viscera. Final processing may only be completed once the angler has reached their residence or prior to consumption. Anglers should be prepared to transport a large paddlefish with only the snout removed, if they choose to harvest a fish more than 45 inches in length.

PADDLEFISH - ARCHERY

Missouri River

Paddlefish may be taken by bow and arrow and possessed on open waters of the Missouri River only during the season that begins on the 2nd Saturday of July and runs for 30 consecutive days, with legal hours being sunrise to sunset. The area of the Missouri River open to archery paddlefish is from Gavins Point Dam downstream to the mouth of the Big Sioux River at mile marker 734, except for a closed area that extends downstream from Gavins Point Dam to a line that extends from the east end of the south cement wall of the discharge canal northwest to the east end of the north wall of the stilling basin. This area is open to

archers taking both game and non-game fish during the appropriate seasons.

Paddlefish harvested by bow and arrow may be possessed only on the Missouri River during the respective season in the designated open area. All paddlefish archery anglers must obtain and have in their possession a paddlefish tag in addition to a fishing permit and Aquatic Habitat Stamp (if required). Applicants must be 12 years old by the second Saturday of July to apply. See section on Paddlefish Tags on (pgs. 22-23). Any paddlefish landed must be tagged immediately in the dorsal fin with the angler's tag. Any paddlefish tag that is locked shut prior to attachment, altered or modified shall be void and **WILL NOT BE REPLACED**. A harvest quota will be managed by issuing a limited number of paddlefish tags with a limit of no more than two tags per person. Only the head, viscera and tail may be removed from archery-harvested paddlefish during transport until the place of residence is reached or the paddlefish is consumed.

NEBRASKA PADDLEFISH HARVEST TAGS

The paddlefish is a limited and precious resource, and it is important that the harvest be closely regulated. A tag will be required for both archers and snaggers who want to harvest a paddlefish (see "Paddlefish Archery" pg 21 and "Paddlefish Snagging" pg.20).

It is important to remember that one person can have no more than two tags for the archery season and two for the snagging season. These tags are non-transferable, they must be in possession while actively pursuing a paddlefish, and they must be immediately attached and locked shut to the dorsal fin of a harvested paddlefish. Archers will have a 30 consecutive day season, beginning on the **second Saturday of July** and snaggers will have a 30-day season, **October 1-30.**

Application Fee:

A \$5.00 application fee must be

Paddlefish Archery Harvest Tag Application Periods

First Application Period April 1 - 30*

There will be no second drawing if all harvest tags are issued in the first drawing
 Second Application Period (*First or Second Tag*) May 15 - 31*

Paddlefish Snagging Harvest Tag Application Periods

First Application Period July 1 - 31*

There will be no second drawing if all harvest tags are issued in the first drawing
 Second Application Period (*First or Second Tag*) August 15 - 31*

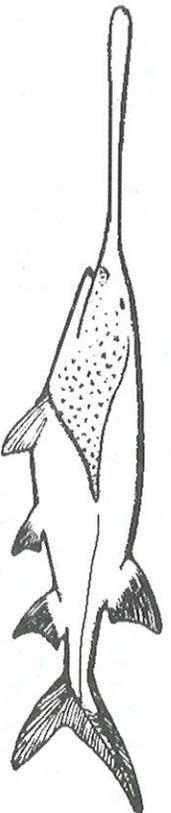

**All application periods begin at 1 p. m. Central Daylight Savings Time. Mailed applications must be received in the Lincoln office by 5 p. m. on the last day of the application period. On-line applications end at midnight.*

submitted by each **resident and non-resident** applicant in order to be placed into the drawing for a paddlefish tag. This is a non-refundable fee. To apply for a paddlefish tag, fill out the form on page 23 or apply on-line at www.outdoornebraska.org. An angler may apply only once during each application period. Two applicants are allowed to submit a joint application (buddy permit) with priority given to the applicant with the least preference points.

Archery and Snagging Preference System

- **Preference.** During the first application period preference will be given to those that did not have a permit the previous year.

If all tags are taken in the first application period, there will be no second application period.

APPLICATION FOR PADDLEFISH HARVEST TAG

Cost: \$5.00 per Application (Non-refundable)

Type of Paddlefish tag requested

- Paddlefish Archery Harvest Tag
 Paddlefish Snagging Harvest Tag

There will be no second drawing if all harvest tags are issued in the first drawing.

**You may apply for all your permits on-line at:
www.outdoornebraska.org**

 2200 N 33rd St. P.O. Box 30370, Lincoln, NE 68503-0370

General Information

FISH SALVAGE IN IRRIGATION CANALS

The Nebraska Game and Parks Commission (NGPC) has implemented regulations affecting fish salvage activities on dewatered irrigation canals.

The following list summarizes the regulations for fish salvage of irrigation canals:

- Fish salvage is restricted to canals listed in the regulations.
- An application must be filled out, approved by NGPC, and carried by parties conducting fish salvage on canals.
- Stocking fish in any waterbody with fish salvaged from irrigation canals must be approved on the salvage application form.
- Salvaged sport fish taken for human consumption are subject to all statewide length, daily bag and possession limits.
- Salvaged baitfish must comply with bait collection regulations.
- All approved fish salvaged from irrigation canals must be reported to NGPC on the report form provided.

The following is a list of canals where the Commission may authorize salvage activities during dewatering:

• PLATTE RIVER DRAINAGE:

Buffalo County: Kearney Canal
Dawson County: Buffalo Creek Supply Canal, Cozad Irrigation Canal, Dawson County Irrigation Canal, Farmers and Merchant Canal
Dawson and Buffalo Counties: Elm Creek Canal

• DAWSON AND LINCOLN COUNTIES:

Gothenburg Canal, Orchard and Altafa Canal, Six-Mile Irrigation Canal, Thirty-Mile Irrigation Canal
Gosper County: E67 Canal System
Gosper and Phelps Counties: E65 Canal System

Gosper, Phelps and Kearney Counties: Phelps County Canal System
Keith and Lincoln Counties: Sutherland Supply Canal
Lincoln County: Maloney Supply Canal

• REPUBLICAN RIVER DRAINAGE:

Franklin County: Franklin Pump Canal
Franklin and Harlan Counties: Napoleon Canal
Franklin, Harlan and Webster Counties: Franklin Canal
Furnas and Harlan Counties: Cambridge Canal
Hitchcock and Red Willow Counties: Culbertson Canal, Driftwood Canal System, Meeker Canal System
Red Willow County: Red Willow Canal
Red Willow and Furnas Counties: Bartley Canal, Frenchman-Cambridge Canal
Webster and Nuckolls Counties: Courtyard Canal, Superior Canal

• LOUP RIVER DRAINAGE:

Custer, Valley and Sherman Counties: Middle Loup Public Power and Irrigation District 1, 2, 3 and 4
Sherman and Howard Counties: Fanwell Canal System - Main, Central and South
Valley and Sherman Counties: Sherman Feeder Canal

Fish salvage application and report forms are available at NGPC district offices in Alliance, Bassett, Kearney, Lincoln, Norfolk and North Platte. Application forms must be approved by staff in the NGPC district office prior to any salvage efforts. More detailed information, including copies of salvage regulations, is available at all NGPC district offices.

WEST NILE VIRUS

With cases of West Nile Virus increasing in Nebraska, local governments and homeowners are considering a variety of measures to suppress mosquito populations that transmit the disease. Areas of standing water that are completely void of fish are mosquito-producing factories, thus it is important to eliminate standing water in buckets, tires, etc. In the case of shallow ponds, a non-native fish, *Gambusia* - AKA "mosquito fish" has been promoted as a mosquito-eating machine while in fact they are no more effective than several native fish species. The Fisheries Division of the Nebraska Game and Parks Commission discourages the stocking of *Gambusia* and recommends the use of fathead minnows. Fathead minnows are native, efficient mosquito predators, and can be purchased from most bait dealers at a much lower price than *Gambusia*.

HELP WANTED

You can help fisheries managers by returning the tags from any tagged fish you catch. It will be returned along with data on where the fish was tagged.

FISH KILL REPORTS

Report dead or dying fish by notifying your local conservation officer, district Game and Parks Commission office or the 24-hour State Patrol pollution complaint number, (402) 471-4545, as soon as possible. Prompt notification will make it easier to determine the cause.

Keep the water safe and clean for future fishing. Report dumping/pollution activities to the Environmental Protection Agency at 1-800-223-0425.

PRIVATE WATERS

Permission from the landowner is required to access any body of water, or stream, located on private property. The issue of fishing private waters raises several questions. Although a private body of water may receive fish for

stocking from the Game and Parks Commission, the owner controls access to it and anyone fishing it must have a valid fishing permit. What constitutes a private pond that does not require anglers to have a fishing permit? The only exception to the requirement of a fishing permit is when a body of water is entirely on private land, has been entirely stocked with private hatchery-reared fish, and does not connect by inflow or outflow with other waters outside the pond owner's property. An unlicensed angler who catches fish from such a body of water and wants to remove them from the premises must have a written statement from the pond owner listing the pond owner's name and the number of fish taken.

On a river or stream, when can a person legally enter private property without the owner's permission? After properly accessing a flowing body of water, an angler can fish while afloat in a tube, canoe or boat. An angler or canoeist in an unpowered vessel can enter private property without permission, only if it's necessary to portage around a fence or obstruction. Landowner permission is required to operate vehicles, such as all-terrain vehicles, along or in a stream.

URBAN FISHING PROGRAM WATERS

The Urban Fishing Program was created by the Commission in 1999 to improve fishing in Nebraska's urban areas. The program focuses on city park and state recreation area lakes which are accessible to large numbers of urban residents, particularly children. Program activities include aquatic habitat improvement, fishing access development, fish stocking, fish population management, and family fishing clinics. Special fishing regulations will be used on some waters

recreation area lakes which are accessible to large numbers of urban residents, particularly children. Program activities include aquatic habitat improvement, fishing access development, fish stocking, fish population management, and family fishing clinics. Special fishing regulations will be used on some waters

to help improve their fisheries and angler catch rates. In general, these regulations will reduce or restrict harvest of certain game species. Populations of these species should subsequently increase and provide anglers with higher catch rate opportunities.

It is vital that anglers follow the restrictive harvest regulations as these small urban water bodies cannot handle high harvest and maintain good catch rates. Program waters should become favorite destinations for adults wishing to teach children how to fish. Special fishing regulations are being placed on the following waters. (See Public Fishing Areas pgs. 46 - 71).

- Adams Park Pond (Omaha)
- Anselv City Lake
- Auble Pond (Ord)
- Auburn Rotary Club Lake
- Barrett Park Pond (McCook)
- Bennington Lion's Club Pond
- Benson Park Pond (Omaha)
- Bethpage Pond (Axtell)
- Cottonmill Lake (Kearney)
- Crystal Cove (South Sioux City)
- David City Park Ponds
- Fontenelle Park Pond (Omaha)
- Grand Island Eagle Scout Lake
- Grand Island Pier Lake
- Grand Island Such's Lake
- Hanscom Park Pond (Omaha)
- Hartwell Park Lake (Hastings)
- Henderson Park Lake
- Hitchcock Park Pond (Omaha)
- Holdrege City Lake
- Humboldt City Park Lake
- Humphrey Pond (Ogallala)
- Johnson Park Pond (Fremont)
- Laing Lake (Alliance)
- Lexington City Lake
- Lincoln Park Pond (Superior)
- Melham Park Lake (Broken Bow)
- Miller Park Pond (Omaha)
- North Platte I-80 Lake
- Neligh Park Pond (West Point)

- Pawnee City Pond
- Pawnee Park East (Columbus)
- Pawnee Park West (Columbus)
- Plattsmouth City Lake
- Ravenna Lake (Buffalo County)
- Steinhart Park Ponds (Nebraska City)
- Sutton Clark Pond
- Ta-Ha-Zouka Pond (Norfolk)
- Tilden City Pond
- Towl Park Pond (Omaha)
- Walnut Grove Park Pond (Omaha)
- Weeping Water Pond
- Wolbach City Pond
- Yanney Park Lake (Kearney)

KID'S FISHING CLINICS

Is your club or organization interested in hosting a kids fishing clinic? The Commission's Aquatic Education program has all the materials necessary to teach youth in your community how much fun fishing can be. Fishing rods, bobbers, stickers and more are available from the

Outdoor Education Center at Ak-Sar-Ben Aquarium near Gretna, phone 402-332-3901.

FISHING TACKLE LOANER PROGRAM

The Nebraska Game and Parks Commission fishing tackle loaner program continues to grow. The program is a combined effort of the Parks and Fisheries Divisions. The Commission is hoping to introduce more Nebraskans to the fun of fishing by making fishing tackle available at 18 State Parks across the state. Spincast rod and reel combos, hooks, bobbers, weights and other tackle are available for park guests to use during their stay, at no charge. Would-be anglers of all ages may borrow the fishing tackle, but during periods of high demand, children are given priority. Anglers 16 years and older must have a current Nebraska fishing permit, and those 18 years and older must also have a current Aquatic Habitat Stamp.

Anglers are asked to return the tackle promptly when finished fishing so others may use the equipment. Anglers should not keep the tackle at their campsite for the duration of their visit. Some parks loan the tackle out of their main office, while others have their campground hosts loan the equipment out. A few parks have bait you can use as well, but at most you will need to purchase your own bait or bring it with you.

The 18 participating park areas in Nebraska are:

- Alexandria SRA (Jefferson County)
- Branched Oak SRA - Area 1 and 4 campgrounds (Lancaster County)
- Calamus Reservoir SRA (Garfield County)
- Chadron State Park (Dawes County)
- Dead Timber SRA (Dodge County)
- Fort Kearny SRA (Kearney County)
- Fort Robinson State Park (Sioux County)

- Fremont SRA (Dodge County)
- Lake McConaughy Visitor Center (Keith County)
- Lewis and Clark SRA (Knox County)
- Louisville SRA (Cass County)
- Mahoney State Park (Sary County)
- Medicine Creek Reservoir SRA (Frontier County)
- Pawnee SRA (Lancaster County)
- Platte River State Park (Cass County)
- Ponca State Park (Dixon County)
- Victoria Springs SRA (Custer County)
- Willow Creek SRA (Pierce County)

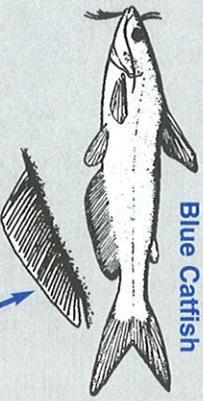

KNOW WHAT YOU CAUGHT

Channel Catfish

- Anal fin has 24 - 29 rays with outer margin rounded.
- Spots not present on large fish.

Blue Catfish

- Anal fin has more than 30 rays with outer margin straight.

Flathead Catfish

- Lower jaw extends past upper jaw.
- Square, unforked tail.

Planning an outdoor adventure?

Find the answers to all of your fishing, hunting, wildlife, parks and outdoor recreation questions on the Nebraska Game and Parks Commission's web site at:

TOURNAMENTS, CONTESTS AND DERBIES

Tournament Registration - All fishing tournaments, derbies or contests held on publicly owned, controlled or managed waters, that require an entry fee to participate, must be registered with the Commissioner's Fisheries Division at least 45 days prior to the event. Voluntary information on other tournaments, such as club tournaments, are also welcome. A Fishing Tournament Approval Certificate must be present at the tournament site. Your tournament date will be listed on the Nebraska Game and Parks website.

Tournament Results - A "tournament results form" will be sent to the

tournament director. This form must be completed and returned to the Commissioner's Fisheries Division within 30 days following the completion of the fishing tournament. Failure to return the form or provide the requested information will result in denial of future fishing tournament requests for at least one year.

Tagged fish - The use of tagged or otherwise marked fish are prohibited in any fishing tournament, derby or contest that are held on (1) waters owned or controlled by the Game and Parks Commission and (2) waters stocked by the Game and Parks Commission during the preceding 24 months, excluding private lakes not owned by the state or other governmental entity.

TOXIC BLUE-GREEN ALGAE FACTS AND PRECAUTIONS

During the summer of 2004, the issue of toxic blue-green algae or cyanobacteria caught the attention of lake users across the state due to closures of various waterbodies to full body contact activities. It is very important that water users understand the facts about blue-green algae and how to avoid health-related problems that can occur with exposure to toxins that are sometimes produced by certain species.

Cyanobacteria, also known as blue-green algae, are single-celled aquatic organisms found in surface waters worldwide. They tend to thrive in stagnant and nutrient-rich (eutrophic) water where extreme algal densities can create undesirable water quality conditions. The algae communities of eutrophic waters may contain representatives from three especially notorious, bloom-forming blue-green algae: *Anabaena*, *Aphanizomenon*, and *Microcystis*. Under certain conditions these blue-greens are capable of producing toxins that can cause human and animal health problems ranging from skin irritation and gastrointestinal upset, to death from liver or respiratory failure.

Blue-green algal blooms typically occur during the months of July and August, but can occur earlier in the summer. During an intense algal bloom the water can range from neon-green, pea-green, blue-green to reddish-brown, imparts a disagreeable odor and taste, and can accumulate in bays or along the shoreline producing an area of foam, scum or a thick mat.

On waterbodies with severe blue-green algae blooms full-body contact and use by animals should be avoided. To help minimize potential health

hazards the following procedures are advised:

- Be aware of areas with severe blue-green algal blooms.
- Don't wade, swim, ski, tube or jet ski in waters containing severe visible blue-green algal blooms.
- If someone does come into contact with water with a severe blue-green algal bloom, it is advised that the person rinse off with clean water as soon as possible.

- It is most important to avoid ingestion of water containing high concentrations of blue-green algae as the digestive process releases the toxins present within the algae.

- Blue-green algal toxins have been shown to accumulate in the internal organs of fish; however, it doesn't appear to be present in fish tissue. Additional testing is scheduled.

The likelihood of adverse symptoms as a result of exposure to blue-green algal toxins increases significantly with the duration of water contact and the density of the blue-green algal bloom. The severity of the illness appears to be directly related to the amount of water and algae ingested. Possible symptoms include: skin rash, mouth ulcers, ulcers inside of the nose, eye and/or ear irritations, blistering of the lips, sore throat, headaches, nausea, muscular pains, painful diarrhea, vomiting, central abdominal pain, seizures, liver failure and respiratory arrest.

HELP PREVENT THE SPREAD OF EXOTIC AQUATIC NUISANCE SPECIES

Aquatic nuisance species are defined as any waterborne, non-native organism that threatens the diversity or abundance of native species, the ecological stability of impacted waters, or threatens a commercial, agricultural, aquacultural or recreational activity.

These nuisance species have the potential to cause significant ecological problems because they have been introduced into habitat in which there are no natural pathogens, parasites or predators. Lack of these natural controls in new habitat may allow a nuisance species to grow at an exponential rate. If such nuisance species become established, they may disrupt ecological relationships in their new home. Introduced nuisance species may prey upon, or compete with native species, and they could transmit diseases to native species.

For anglers and boaters using the waters of Nebraska, it is very important that you take precautions to prevent the introduction or spread of exotic nuisance species. This is especially important to boaters who travel to waters that currently have exotic nuisance species not present in any Nebraska waters. Listed below are some procedures that should be followed:

- Inspect boat, trailer, and all boating equipment and remove any visible plant material and animals before leaving all water access sites.
- Drain water from the livewell and bilge on land at the water access site. Never release live bait into any waterbody, or transfer and release any aquatic animal from one waterbody into another.
- Wash mud off all waders since mud can be a means by which various organisms, especially parasites, gain access to a new watershed.
- Zebra mussels can survive up to 2 weeks out of water, so after boating in infested waters and before transporting your boat either:
 - rinse your boat and all equipment with hot tap water (over 104° F); or
 - spray your boat and trailer with a high pressure sprayer. (The hot-water sprayers at car washes can be used); or
 - dry your boat and all equipment for at least 5 days; and
 - be sure to run the water out of the lower unit.

There are a multitude of exotic aquatic nuisance species that are of concern across the United States. The list of potential problem exotic species is long but several species that are of immediate concern to Nebraska would be: zebra mussels, asian clams, eurasian water milfoil, curlyleaf pondweed, salt cedar (*Tamarisk*), purple loosestrife, bighead carp, silver carp, snakehead, *Daphnia lumholzi* (zooplankton species) and rusty crayfish.

Under federal and/or state law, discrimination is prohibited on the basis of race, color, religion, age, gender, marital status, national origin, disability or political affiliation. If you think you have been discriminated against in any program, activity or facility or want more information, contact the Affirmative Action Officer, Nebraska Game and Parks Commission, Lincoln, NE, 402-471-0641; the Equal Opportunity Commission, Lincoln, NE, 402-471-2024, TTY / TDD 402-471-4693.

HOW TO MINIMIZE RISK BY CAREFULLY CLEANING YOUR FISH

Limited Consumption: Although fish consumption advisories have been issued for the water bodies listed here, please note that a person consuming an occasional meal of fish (less than one 8-ounce serving per week) from these waters is not considered to be subject to a significant health risk.

AQUATIC HABITAT WORK 2004-2005

Cunningham Reservoir (Douglas County) - Feasibility study by Army Corps of Engineers 85% complete. Funding to finish the feasibility study is subject to federal budget appropriations - status unknown.

Grove Lake (Antelope County) - Hydraulic dredging is in the third year of a four year project. Work is scheduled for completion at the end of 2005.

Holmes Lake (Lancaster County) - This project is approximately 80% complete and should be finished, refilled (subject to weather) and restocked by spring of 2005.

Lake Ogallala (Keith County) - A new oxygenation system has been installed in the North Basin to provide thermal and oxygen refuge for trout. It is being fine-tuned and monitored.

Sherman Reservoir (Sherman County) - A consultant firm has been hired to design and engineer this project. Preliminary design is expected to be completed by January 2005.

Walnut Grove Park Pond (Douglas County) - The City of Omaha Parks and Recreation Department is designing this project. Construction is expected to begin sometime during the 2004-2005 Fiscal Year.

Yanket Hill Reservoir (Lancaster County) - Construction is estimated to be 75% complete on this project. The project is scheduled to be finished by late winter, 2004.

*Take me fishing
because you can think
about work later.*

FISH CONSUMPTION ADVISORIES FOR 2005

At this time, there are no advisories that limit total consumption!

CATCH AND RELEASE WORKS

Catch-and-release fishing only works when the fish you release survive. By using proper techniques, you give fish the best chance of survival. Here are a few guidelines:

- Do not play the fish to exhaustion.
- Wet hands and keep fish in water as much as possible when handling and removing the hook.
- Remove the hook gently. Do not squeeze the fish or put your fingers into the gills.
- Barbless hooks reduce handling time and make it simpler to remove the hook, often by backing it from the fish's mouth without lifting the fish from the water.
- Release the fish only after its equilibrium is maintained. If necessary, hold fish gently upright until it can swim away.
- Remove deeply imbedded hooks by use of a hemostat or hook removal device if at all possible. This is presently considered the best method to ensure higher survival of deeply-hooked fish.

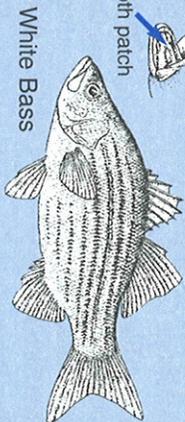

KNOW WHAT YOU CAUGHT

White Bass

- Anal fin spines stair-stepped
- Broken lateral stripes
- One tooth patch on base of tongue

Tooth patch

White Bass

Wiper

- Broken horizontal lines
- Usually two tooth patches on base of tongue

Tooth patches

Wiper

White Perch

White Perch

- Second and third anal spine same length
- Sides plain, no stripes

Yellow Bass

- Has yellow cast
- Six or seven lateral stripes, three are above lateral line
- Lines are broken toward tail
- Second and third anal spine same length

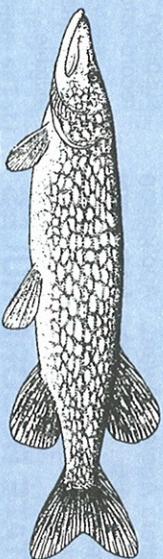

Yellow Bass

KNOW WHAT YOU CAUGHT

Northern Pike

- Five or fewer pores on lower jaw
- Cheeks fully scaled

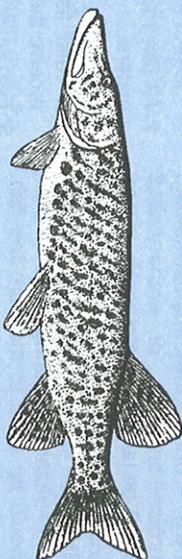

Northern Pike

Pores

Muskellunge

- Six or more pores on lower jaw
- Upper half of cheeks scaled

Muskellunge

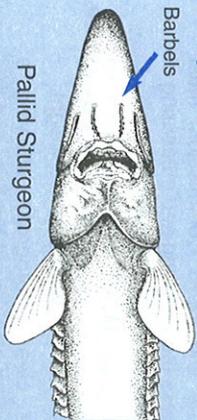

Pores

KNOW WHAT YOU CAUGHT

Pallid Sturgeon - An Endangered Species

- Illegal to possess
- Outer barbels twice as long as inner barbels
- Base of barbels "U" shaped inner two set out in front

Pallid Sturgeon

Barbels

Lake Sturgeon - A Threatened Species

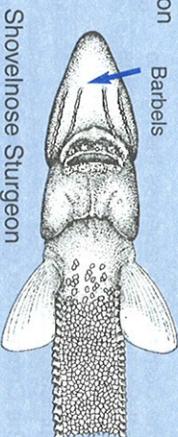

- Illegal to possess
- Short snout turns up at end
- Barbels are not fringed

Lake Sturgeon

Shovelnose Sturgeon

- Nebraska's most common sturgeon
- Barbels all the same length
- Barbels straight across
- Smallest Nebraska sturgeon, rarely exceeds 4 pounds

Shovelnose Sturgeon

Barbels

If you make an outstanding catch, it may qualify for either a Game and Parks Commission State Record or a Master Angler Award. Application forms are available from any Commission office, conservation officer or permit vendor. Rules include:

STATE RECORD RULES

1. Fish MUST be caught in accordance with Nebraska Fishing Regulations by rod and reel (not set lines or limb lines), underwater spear-fishing, surface spearing, or archery and MUST be taken from Nebraska waters.
2. Accredited or certified weigh scales MUST be used to weigh the fish. A commercial measuring tape or stick should be used to measure the fish. The fish should be measured, from the tip of the mouth (closed) to the tip of the tail (tail lobes pressed together) with the fish laying flat on the tape.
3. Only fish that exceed current record by at least one ounce, are eligible for a new State Record.
4. Two witnesses, one of which MUST be a permanent employee of the Nebraska Game and Parks Commission, must witness the weighing and measuring of the fish and sign the application.
5. The angler MUST display a Nebraska fishing permit to the Game and Parks employee that witnesses the weight.
6. One clear photograph showing a close-up sideview of the fish, and one clear photograph showing the angler with the fish MUST accompany the completed application form. All photographs become the property of the Commission.
7. The species of fish MUST be verified by a Nebraska Game and Parks fisheries biologist. The fish MUST be preserved flat until species is verified.
8. The Commission reserves the right to collect fish scale, tissue or spine samples to check fish identification, and to refuse any questionable application submitted.
9. The Commission reserves the right to revoke state records if the record

holder is found in possession of illegal fishing gear or has been cited for repeated fishing violations that cast suspicion on the authenticity of the record catch.

10. No fish caught from any aquaculture or commercial put-and-take facility is eligible.

11. The application must be submitted within 30 days of the date the fish is caught.

MASTER ANGLER

1. All fish must be taken from Nebraska waters.
2. If a fish is caught from private waters, a valid fishing permit is required to receive the award.
3. Fish must be taken by hook-and-line. Fish caught on banklines are not eligible. Fish must be legally hooked, played and landed by the applicant for the award.
4. The catch must be verified. This may be done by an employee of the Game and Parks Commission, a permit vendor, a witness or a photograph.
5. Anglers 16 years of age or older must possess a current Nebraska fishing permit and enter the permit number on the application.
6. Only fish immediately released are eligible for an award based on length. Any fish kept in a livewell or on a stringer must meet the minimum weight requirement to receive an award.
7. Anglers may receive only one award based on weight per year for each species. There is no limit on the number of catch-and-release awards.
8. Anglers who release a Master Angler fish will receive a "Catch and Release Master Angler" pin in addition to the Master Angler certificate.
9. Minimum weights must be met to qualify for a Master Angler Award for a harvested fish.
10. Minimum lengths are used strictly for Master Angler Awards for a fish that was caught and released.

THE MINIMUM SIZE REQUIREMENTS ARE:

American Eel	24 in. or 1lb.	Crappie	15 in. or 2 lbs.
Bass		Drum	22 in. or 5 lbs.
Largemouth	20 in. or 5 lbs.	Gar	40 in. or 8 lbs.
Rock	11 in. or 1 lb.	Goldeye	16 in. or 1.5 lbs.
Smallmouth	18 in. or 3 lbs.	Muskellunge/Tiger Muskie	40 in. or 15 lbs.
Spotted	18 in. or 3 lbs.	Paddlefish	*45 in.
Striped	32 in. or 10 lbs.	Perch	
Striper (hybrid)	24 in. or 8 lbs.	Yellow	13 in. or 1.25 lbs.
White	17 in. or 2.5 lbs	White	12 in. or 1 lb.
Bluegill	10 in. or 1 lb.	Northern Pike	36 in. or 10 lbs.
Buffalo	26 in. or 10 lbs.	Sauger	21 in. or 3 lbs.
Bullhead	15 in. or 2 lbs.	Saugeye	23 in. or 5 lbs.
Burbot	16 in. or 1 lb.	Shovelnose Sturgeon	28 in. or 2.5 lbs.
Carp	32 in. or 15 lbs.	Sucker	18 in. or 2 lbs.
Catfish		Sunfish	10 in. or 1 lb.
Blue	40 in. or 30 lbs.	Trout	
Channel	30 in. or 12 lbs.	Brook	14 in. or 1 lb.
Flathead	32 in. or 15 lbs.	Brown	22 in. or 4 lbs.
		Rainbow	23 in. or 5 lbs.
		Walleye	28 in. or 8 lbs.

NEBRASKA'S PUBLIC FISHING AREAS

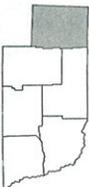

PANHANDLE

The Panhandle is a haven for trout anglers. Rainbows, browns and brooks abound in the many Pine Ridge and North Platte valley cold-water streams. This area also contains several reservoirs and sandhill lakes that provide excellent walleye, tiger muskie, northern pike and panfish fishing.

DISTRICT 1 - PANHANDLE
Alliance Office

Al Hanson,
Fisheries Supervisor
(308) 763-2940
Fax (308) 763-2943

Box Butte County

Kilpatrick Lake - 160 acres, 22W, 1S of Alliance; Privately owned, but managed by NGPC, special regulations listed at the lake, summer die off in 2004 due to low water levels, currently no fishing opportunity.

Laing Lake - 10 acres, Alliance, W. 18th Street & Box Butte Avenue; Largemouth bass, bluegill, channel catfish; Channel catfish - daily bag limit of 3. Urban Fisheries Program Lake.

Dawes County

Bourdeaux Creek - SE of Chadron; Brook and brown trout; Total catch and release for all trout species on that portion of the creek located on the WMA. Only artificial lures with barbless hooks or hooks with flattened barb are allowed. Public access on Big Bourdeaux Creek WMA.

Box Butte Reservoir SRA - 1,600 acres, 10N

of Heringford; Bluegill, channel catfish, crappie, largemouth & smallmouth bass, pike, walleye, yellow perch, rock bass; Subject to severe summer drawdown, primitive camping, all boats allowed.

Narrows WMA (Republican River) - 4W of Red Cloud on Hwy. 136; Carp, channel catfish, white bass.

SOUTHEAST

Fishing opportunity is increasing in the Southeast Aquatic Habitat Projects are improving hundreds of acres of fishing water in the area. Farm ponds, streams and rivers are important fisheries. In spite of potential for heavy fishing pressure, anglers will find plenty of opportunities to catch catfish, largemouth bass and bluegill in most waters.
